## **DETAILED ACTION**

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Claims 1-2, 4-14, 16, 21-23, 25-35, 37, 39-42, 46, 48-49, 51-61 are allowable over the prior art of record. The closest prior art of record Jagadish, teaches evaluating the costs of different plans, however it fails to teach computing a selectivity value for predicates or gathering all the statistics of total number of nodes, total number of containers, total nodes accessible via a path through a specified node, and total containers accessible through a specified node, these limitations being indicated in claim 1, 9-10, 22, 30-31, 42, 46, 48 and 58 as "computing a selectivity value for each of one or more predicates", in claims 59 and 61 as "computing a selectivity value, based at least in part on the statistics, for a predicate included in the request", and in claims 40 and 41 as "wherein the step of gathering statistics comprises gathering each of a total number of nodes, in said hierarchy, that are accessible via a path through a specified node, a total number of containers, in said hierarchy, that are accessible via a path through said specified node, a total number of nodes, in said hierarchy, that are accessible via a path through said specified node and that are in a level of said hierarchy that is immediately under a level of said specified node, and, a total number of containers, in said hierarchy, that are accessible via a path through said specified node

and that are in a level of said hierarchy that is immediately under said level of said specified node".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
